Ready to work remotely

SUMMARY

Motivated entry-level QA professional with a background in business management and team leadership. I possess foundational QA skills and excel in creating and executing test cases, conducting various types of testing, and efficiently identifying and reporting software defects. Experienced in web and mobile testing, I am adept at utilizing Jira, TestRail, and Postman for project work. Additionally, I have a strong command of testing theory and possess fundamental knowledge in SQL.

PORTFOLIO

Link
